### Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

### Flow: (Simplified)

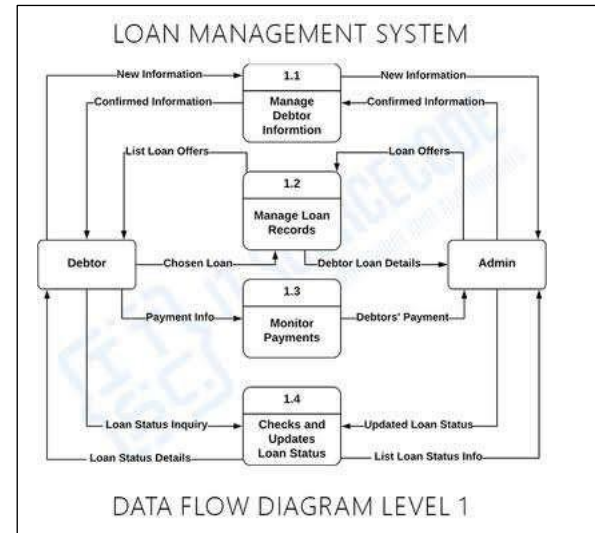

- The user can register in website by using Email and Mobile number.
- The user can Login by using Email and password as Registered in the respective website.
- The user will provide personal and financial details.
- User should upload the scanned documents.
- Then it will go to approval process.
- Finally they will get loan closure certificate.
